

## Hormonal test

Date and Time: 24 AUG 2024, 20:54 PM

Report ID: 4629

Endocrinology Test: Fluorescence immunoassay test for the quantitative measurement of thyroxine (total 4) in canine and Feline serum or plasma

Pet Information:

Animal ID: 1553  
Age: 5 years

Owner Name: Sadeem

Pet Name: kaya  
Gender: female  
Breed: cat

Sample Information

Sample ID: T4

Type: Serum

Biochemical Test Speed TM

Analytes and Results

Analyte Name	Observed Value	Reference Range	Unit
Total T4 concentration	61.02 nmol/L	<15 nmol/L low 15-40 nmol/L normal >50 nmol/L high	Nmol/L
